Collector(s)			
Site of Collection			
Latitude (Approximate decimal degrees)		Longitude (Approximate decimal degrees)	

## General Habitat

Marine
  Freshwater
  Brackish/Estuary
  Terrestrial

## Animals Collected

Organism name (Genus species format – use common name or next closest taxa if ID uncertain)	Date of collection (if different from above)	Location of Collection (if different from above)	Depth (approx. in meters)	Quantity collected	Distribution (abundant, common, frequent, occasional, rare, epiphyte)	Fate (return to collection site, euthanize*, food for other animals, bycatch)

Please contact Animal Care with any questions about filling in this form.

Once animals arrive on station, their care is the responsibility of the PI and their associates unless assistance of BMSC staff is needed and requested. Consult [BMSC SOPs](#) for acceptable species-specific methods of care.

\*Animals euthanized with chemicals must not be returned to the environment. Please contact Animal Care staff for details on how to dispose of these animals.
